

"TK" is SMH's then Headmistress, Harriet Robinson.

Her biographer believes "Sally" to be her sister Mary but has no idea how either nickname came into being or what "TK" stood for.

Dearest Sally,

After the wettest weather I have ever experienced anywhere, & the windiest, at last the sun shines. There was a new moon last night, visible over the sea & I see'd him through glass!! Why didn't you warn me Sally that he was on the way. The little packet of butter arrived safely yesterday morning - just one day after I had finished the last you sent me - or was it gave me? I have a little at breakfast every morning - the only time I have any chance, we don't see bread at any other time, except at tea time & I'm rarely in for tea. Thank you so much for sending it. I still don't believe you ought to send it out of your own meagre ration. Anyhow

Sunday morning 9.30

Dec. 1 ( researched phases of the moon and established it is 1947)

Dearest Sally

After the wettest weather I have ever experienced anywhere and the windiest—at last the sun shines. There was a new moon last night, visible over the sea and I see'd him through glass!! Why didn't you warn me, Sally, that butter was on the way. The little packet of butter arrived yesterday morning—just one day after I had finished the last you sent me—or was it gave me? I have a little at breakfast every morning, the only time I have any chance, we don't see bread at any other time, except at tea time and I'm rarely in for tea. Thank you so much for sending it. I still don't believe you ought to sent it out of your own meagre ration.

Anyway this will last me until I come home. Hurry up those

electric people, tell them we need it for our big Xmas Party! Here is an aerial picture of St Mary's Hall which will give you a good idea of the size of the buildings and grounds.

Playing fields  
Sanatorium

S.M.H.

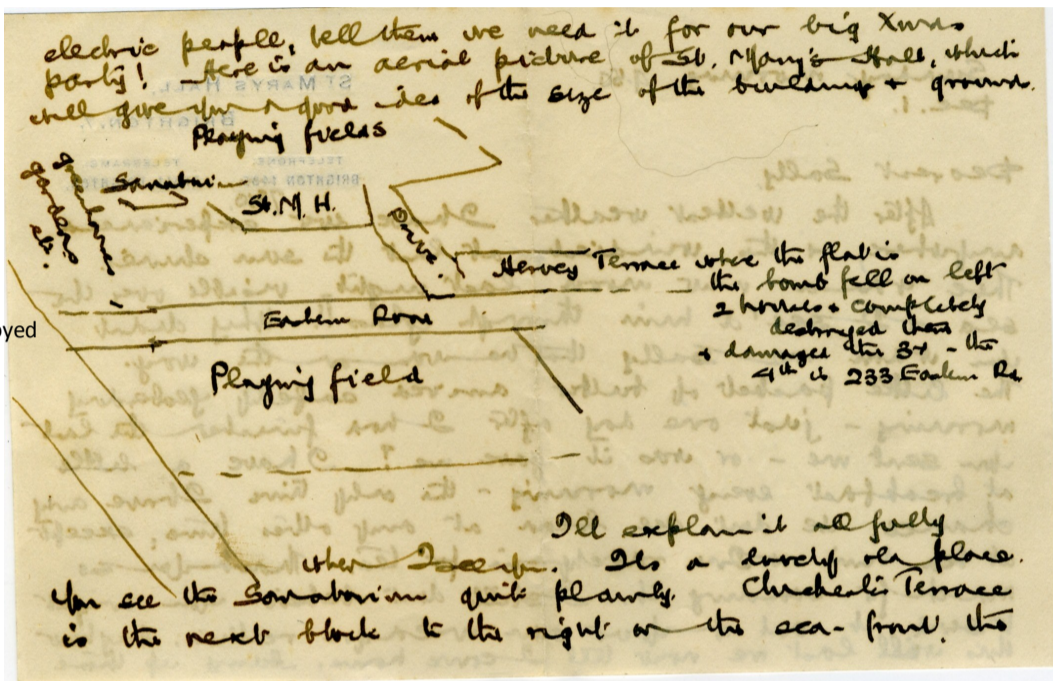

Drive

Hervey Terrace where the flat is. The bomb fell on left 2 houses and completely destroyed them and damaged the 3rd and 4th & 233 Eastern Road

Eastern Road

Playing field

I'll explain it all fully in December. It's a lovely old place. You see the Sanatorium quite plainly. Chichester Terrace is the next block on the right on the sea front, the

houses are similar to those shown. Babington House consists of two houses, 2 and 3 Chichester Terrace. Basement, ground floor and 4 floors above. Beautiful old Regency period mansion. You must come and see it next year when we've got it into something like order.

Be a good girl and don't go carrying slops down into the basement or climbing up ladders.

I've got to attend a Governors' Meeting in London, 2.30 on Dec. 21st, should get enough time to help with the mince-meat.

Hope you are well also Bianci. Tell him coats are all (the)

fashion in Brighton.  
Heaps of love.  
T.K.

I'm expecting Millie tomorrow - I do hope she won't be frozen. I have to be out all sorts of weather. get wet & dry again get wet again & dry & so on all day long. the gales have been terrific. the wind howls & whistles in Babington and the rain lashes the windows like being at sea!! Poor Millie... I shall be glad of her help and so good to have someone to talk things through with.
